Feature Comparison of ADMET Prediction Platforms
Physicochemical properties
Absorption endpoints
Distribution endpoints
Metabolism endpoints
Excretion endpoints
Toxicity endpoints
Multi-engine consensus
Applicability domain
Conformal prediction
Ensemble uncertainty
Composite reliability (PRI)
Clinical Developability Score
BCS classification
Formulation recommendations
DDI victim/perpetrator
Metabolite prediction + DILI
AOP mapping
bRo5/PROTAC assessment
Comparative drug profiling
SHAP explainability
Batch processing
